

## **FAQ's About** **Scheduling**

### ***How is my schedule created?***

SVHS creates their schedule of courses 'on demand'. This means we first ask students what they would like to take and then build a master schedule based on requests. This is why it is so important for requests to be **accurate** and for **little change to occur once initial requests are made** in the Spring. Courses are assigned randomly and it does not matter when the requests were entered, no priority is given.

*-Students meet as a class with counselors and receive their paperwork.*

*-A week or so later they meet with office staff in small groups to make their requests.*

*-Once all requests are entered, the schedule is processed. If not all requests are met then counselors work to use the alternate options students have provided. If necessary, counselors find students to provide other options.*

### ***What if I don't get all the courses I requested?***

While we do our best to provide everyone their first choice this is not always possible. We ask students to provide 'alternate' courses at the time requests are made. These are courses that may not be the student's first choice, but still courses the student is interested in taking if their dream schedule does not work.

### ***When can I take Driver's Education?***

In the Fall semester Sophomores only are enrolled in DE. Spring semester 9<sup>th</sup> graders are identified and offered the course based on their birth date and completion of 1<sup>st</sup> semester courses. Permit courses are held approximately 5 times a year. Students
